Industry Experience

FOR INVESTORS · PARTNERS · LEADERSHIP

01 Executive Summary

RupeeValcore Technologies operates at the intersection of two national priorities: Artificial Intelligence literacy and Financial literacy — delivering structured, compliance-minded programmes to schools and colleges across Chennai, with a 24-month roadmap to Tamil Nadu and South India scale.

Founded by **Manikandan C**, an engineer with prior industry experience at Tata Consultancy Services, an AWS Cloud certification, and a NISM Series XII securities-markets certification, RupeeValcore positions itself at a clear policy-driven gap: NEP 2020 (Chapter 4.26) mandates the integration of AI literacy and financial life-skills education, yet most schools have no structured delivery pathway for either.

The Market Opportunity

India's school system serves a very large student population. RupeeValcore offers two complementary, recurring-revenue programmes — the **AI for Students Workshop** and the **Financial Literacy Club** (annual subscription, 9–10 sessions/year, 3 age groups) — on an asset-light model with a clear trainer-team scale path.

24-Month Target

Rs.1 Crore+ annualised revenue run-rate · Tamil Nadu scale · trainer team expansion · franchise / licensing pilots. See Section 10 for phased milestones.

Revenue Model — Illustrative 24-Month Trajectory

Revenue Stream	Unit Price	Monthly Target	Monthly Revenue Potential
School Financial Literacy Club	Rs.10,500–13,500/month	5 schools	Rs.52,500 – Rs.67,500
College AI Workshop	Rs.20,000–35,000/day	8 sessions	Rs.1,60,000 – Rs.2,80,000
School AI Workshop	Rs.20,000–35,000/day	4 sessions	Rs.80,000 – Rs.1,40,000
Corporate / Seminar	Rs.25,000–60,000	2 sessions	Rs.50,000 – Rs.1,20,000
Annual MOU Contracts	Rs.1,00,000+	1/quarter	High upside

Figures are illustrative management projections, not audited results or guarantees of performance.

BOTTOM LINE FOR INVESTORS

A two-product, recurring-revenue model anchored in one signed institutional MOU, with a clear, asset-light path to Tamil Nadu scale over 24 months.

TWO NATIONAL PRIORITIES · ONE PROGRAMME

02 The Problem We Solve

The AI Education Gap

- NEP 2020 mandates AI exposure from Class 3 onward — most schools currently have no structured delivery pathway.
- Government skilling initiatives (e.g. MeitY-linked programmes) have flagged a widening gap between AI-related job demand and graduate readiness.
- Surveys by AI education providers and industry bodies report that most students already use AI tools informally, without classroom guidance.

The Financial Literacy Gap

- RBI's financial literacy surveys have repeatedly highlighted low levels of formal financial education among Indian adults.
- Students typically complete 14 years of school with little or no structured instruction on budgeting, saving, or taxation.
- The CBSE Skill Education Framework recognises Financial Literacy for Grades 9–12, though in-school delivery remains limited.

“AI is not replacing students — it is replacing students who do not know AI. My mission: no student gets left behind in this shift.” — Manikandan C, Founder

Schools currently lack a structured, ready-to-deploy financial literacy programme designed to minimise administrative burden and support regulatory compliance — RupeeValcore is built to close precisely this gap, under the same policy umbrella (NEP 2020 Ch. 4.26) that already mandates it.

WHY THIS MATTERS

Two policy-mandated gaps, one delivery model — institutions that act early gain a compliance-ready answer to a requirement every school will eventually need to meet.

VERIFIED EXPERTISE · REGULATORY CERTIFICATION

03 Founder & Credentials

Manikandan C — Founder

Manikandan C brings prior industry experience from Tata Consultancy Services (TCS), spanning IT infrastructure, cloud engineering, and enterprise systems, to the design of every workshop. He holds a B.E. in Medical Electronics Engineering and has since built practical expertise in AI tools and financial-markets education.

As founder of RupeeValcore — a financial-education platform he built using AI-assisted development tools (“vibe coding”) — and its technology subsidiary RupeeValcore Technologies, he has applied the same AI tools he teaches to build and operate the company's own technology platform.

Regulatory Position

The NISM Series XII — Securities Markets Foundation Certification is issued by the National Institute of Securities Markets, the institution established by SEBI. It is a relevant, verifiable credential for delivering financial literacy education in Indian schools. A physical certificate is available for verification at every school visit. All financial literacy content is education-only and non-advisory — no financial products are sold, and no commissions are earned, ever.

Certifications

- AWS Certified**
Amazon Web Services — Cloud Infrastructure
- NISM Series XII**
Securities Markets Foundation — issued by NISM (established by SEBI)

Work Experience

- TCS — 4 Years**
IT Infrastructure & Cloud Engineering

Zero Product Sales

WHY IT'S VERIFIABLE

Every credential on this page can be independently confirmed: NISM XII directly with NISM, the physical certificate on any school visit, and the RV platform as a live, inspectable product.

SIGNED MOU · ACTIVE SESSIONS

04

Active Institutional Partnership

MOU: SIGNED & ACTIVE	Chettinad Sarvalokaa International School, Chennai
Programme Type	Financial Literacy Club — Monthly Sessions, 3 Age Groups (Grades 3–12)
Duration	June 2026 – March 2027 (9 Academic Months)
Sessions	36 Total Sessions (12 per age group) — Every Wednesday, 2:20–3:20 PM
MOU Status	Signed & active — hard copy available for institutional verification on request
Policy Basis	NEP 2020 Ch.4.26 · CBSE Skill Framework · RBI Financial Literacy Survey

What This Partnership Demonstrates

- **Institutional Trust** — a CBSE-affiliated international school selected RupeeValcore after reviewing credentials, curriculum, and compliance posture.
- **MOU Discipline** — a formal Memorandum of Understanding documents scope, schedule, and responsibilities.
- **Programme Design Validated** — 36 sessions across 3 age groups, embedded in the school timetable every Wednesday.
- **Regulatory Framework in Action** — the programme operates under NEP 2020, CBSE, and NISM-informed content.

Programme Assessment Targets (forward-looking, to be measured at cycle-end)

Target: 60%+ improvement in financial knowledge, and 70%+ of students developing one measurable money habit per cycle.

PROOF, NOT PROMISE

This is a live, timetabled engagement inside a CBSE-affiliated school — not a pilot on paper. Hard-copy MOU and session records are available for institutional verification on request.

SCHOOLS & COLLEGES · ZERO SETUP REQUIRED

05

AI for Students — Workshop Programme

A structured, hands-on workshop taking students from AI-aware to AI-capable in a single session, using live tools rather than passive slides. All tools carry free tiers so students can continue independently after the session at no cost.

Module	Tools Used	Level	Format
AI Tools for Learning	ChatGPT, Gemini, NotebookLM, Perplexity, MS Copilot	Beginner	Free tools, no setup
AI Automation & Agents	Zapier, Make.com, n8n, Claude Agents, AutoGPT	Easy–Mid	Drag & drop, no code
AI Content Creation	Google Veo 3, Canva AI, ElevenLabs, Sora, Runway ML	Beginner	Text-to-video
Vibe Coding	Cursor, Bolt.new, Lovable, Google AI Studio	Easy–Mid	Agent-first, live preview

Pricing — Market-Benchmarked (all fees exclusive of GST)

Format	Scope	Duration	Fee (+GST)
Single-Day AI Workshop	Full school/college — all batches	6–8 hours	Rs.20,000 – Rs.35,000
Short Session	1–2 grade levels / dept / batch	1–3 hours	Rs.15,000 – Rs.25,000
Per-Student Rate	Co-pay or opt-in cohort models	Full session	Rs.299 – Rs.599
AI Club / Term Programme	Weekly sessions	8–12 sessions	Custom — contact us

Comparable IIT-backed bootcamps and enterprise AI trainers typically charge Rs.500–2,500 per student and Rs.15,000–50,000 per institution per day. RupeeValcore is priced 30–50% below this range. **Upgrade Incentive:** signing the Term Programme within 30 days of the workshop credits 50% of the workshop fee toward it. Subsidised pricing is available for government and aided institutions.

DESIGNED FOR ZERO FRICTION

No lab, no installs, no IT approvals — any classroom with a browser becomes the venue, so a single-day booking is genuinely single-day, start to finish.

ANNUAL SUBSCRIPTION · NEP 2020 ALIGNED

06 Financial Literacy Club — School Programme

A structured, year-long programme for students from Grade 3 to Grade 12. Sessions are activity-based and age-appropriate. No financial products are sold and no commissions are earned. Session planning, materials, attendance, and monthly reports are managed entirely by RupeeValcore.

Group	Grades	Core Topics	Session
Foundation	Gr. 3–5	Money & value, needs vs wants, saving habits, banking basics, smart spending, earning basics, generosity	60 min/mo
Intermediate	Gr. 6–8	Budgeting (50/30/20), banking & savings accounts, UPI safety, scam & fraud awareness, credit & debt basics, goal-setting	60 min/mo
Advanced	Gr. 9–12	Salary (CTC vs take-home), income tax awareness, EMI/credit/debt, investment awareness, mutual funds & SIPs, insurance awareness, career planning	60 min/mo

Annual Pricing (exclusive of GST)

Programme Group	Fee / Session	9 Sessions/Yr	10 Sessions/Yr
Foundation (Gr. 3–5)	Rs.2,500–3,500	Rs.22,500–31,500	Rs.25,000–35,000
Intermediate (Gr. 6–8)	Rs.3,500–4,500	Rs.31,500–40,500	Rs.35,000–45,000
Advanced (Gr. 9–12)	Rs.4,500–5,500	Rs.40,500–49,500	Rs.45,000–55,000
All 3 Groups (Gr. 3–12)	Rs.10,500–13,500/mo	Rs.94,500–1,21,500	Rs.1,05,000–1,35,000

Option A — Single Payment Full fee upfront, 5% discount applied	Option B — 50/50 Split 50% in June, 50% in November, zero interest	Option C — Monthly Equal instalments, zero upfront commitment
---	--	---

BUILT FOR SCHOOL FINANCE TEAMS
Three payment structures and zero-admin delivery mean a Principal or Trustee can approve this without creating new work for their own staff.

WHAT SETS THIS PROGRAMME APART

07
 Why RupeeValcore

Only integrated AI + Financial Literacy provider

Few programmes in India combine both disciplines under one organisation, letting institutions address two skill gaps through a single partnership.

Founder-delivered

Manikandan C built RupeeValcore's own platform using the AI tools taught in workshops, and delivers sessions personally.

Zero infrastructure requirement

All AI tools run in a web browser — no lab, software installation, or IT coordination required.

Minimal admin burden for schools

RupeeValcore manages session planning, materials, attendance, and monthly reports. Teachers are observers.

Verifiable regulatory compliance

NISM XII credentials are verifiable directly with NISM. Content is designed to minimise regulatory exposure for the institution.

Transparent commercial model

Zero product sales, zero commissions, zero referral fees. Revenue comes only from programme fees.

NEP 2020 documentation

Schools receive monthly progress reports and participation certificates supporting NEP 2020 life-skills compliance records.

Below-market pricing

Priced 30–50% below comparable IIT-backed and corporate training providers.

THE SHORT VERSION

One founder, one integrated curriculum, zero product sales — institutions get a single accountable partner instead of stitching together two separate vendors.

EVERY CLAIM VERIFIED WHERE POSSIBLE

08

Compliance & Regulatory Alignment

Framework / Body	Relevance to RupeeValcore	Status
NEP 2020 (Ch. 4.26)	Mandates AI integration from Class 3 and financial life-skills education; both programmes are structurally aligned.	Compliant
CBSE Skill Education Framework	Recognises Financial Literacy for Grades 9–12; RupeeValcore's Advanced curriculum addresses this.	Aligned
NISM Series XII	Founder holds NISM Series XII, issued by NISM (established by SEBI). Certificate available for verification on request.	Certified
SEBI Content Guidelines	Financial content is education-only: no investment advice, no securities recommendations, no product promotion.	Compliant
IRDAI Guidelines	No insurance products are promoted, discussed, or sold during any session.	Compliant
RBI Financial Literacy Survey	Programme design references RBI's published financial literacy findings.	Referenced
Student Data Protection	No student personal data is collected, stored, or processed; no digital accounts are created for students.	Zero Data

NISM XII Certified (Founder)

IRDAI-Safe

NEP 2020 Aligned

CBSE Framework Aligned

Zero Product Sales

Zero Student Data

For Institutional Risk Officers & Trustees

RupeeValcore is an education provider. No financial products are sold or promoted, and no commissions or referral fees are earned from any financial institution. The programme is designed to minimise regulatory exposure for partner institutions; MOU documentation is available for institutional review, and founder credentials can be verified directly with the issuing bodies.

FOR COMPLIANCE SIGN-OFF

Every framework referenced above is a public, checkable standard — nothing on this page asks a risk officer to take RupeeValcore's word for it.

CLEAR · COMMITTED · ZERO FRICTION

09 Engagement Process & Next Steps

For School Principals

- 1 Discovery Call**
Free 20-minute call on grade levels, cohort size, and curriculum fit. Zero commitment.
- 2 Free Demo Session**
One complimentary 60-minute demo at your school. No charges, no obligation.
- 3 Custom Programme Design**
Schedule, age groups, and payment options configured to your timetable and budget.
- 4 MOU Signing**
A transparent MOU is signed before any programme begins.
- 5 Programme Launch**
First session within 2 weeks of MOU signing.

For College Leadership / T&P Officers

- 1 Discovery Call**
Free 20-minute call on departments, cohort size, and placement calendar.
- 2 Custom Programme Design**
Modules configured to student profile and academic calendar.
- 3 Pilot Session**
A single trial session (1–3 hours) before any financial commitment.
- 4 Internal Review**
A one-page summary circulated for internal approval.
- 5 College Rollout**
Full deployment, typically within 2 weeks of sign-off.

WHAT HAPPENS AFTER YOU SIGN

- ★ Every commitment on this page is capped before it's made — a free demo, a paid pilot, or a documented MOU — so leadership always sees the full scope before spending a rupee.

FOR INVESTORS & STRATEGIC PARTNERS

10 Phased Growth Milestones

RupeeValcore is currently at the active partnership and programme-delivery stage, building institutional traction ahead of structured growth. The following are phased internal targets, not guaranteed outcomes.

PHASE 1 · 0–6 MONTHS Consolidate the current school partnership. Target 3–5 additional school MOUs in Chennai. Begin college workshop outreach.	PHASE 2 · 6–12 MONTHS Expand to 10+ school MOUs and 5+ college partnerships. Onboard the first additional trainer. Document measured outcomes from the pilot.	PHASE 3 · 12–24 MONTHS Target 30+ school MOUs and 20+ college partnerships across Tamil Nadu. Grow trainer team to 5+. Evaluate franchise/licensing model. Target Rs.1 Crore+ annualised run-rate.
--	--	---

Strategic investors aligned with Indian ed-tech, NEP 2020, or financial literacy missions are invited to initiate a conversation. A detailed financial model and diligence pack is available on request.

24-Month Roadmap at a Glance

Phase 1 0–6 mo 3-5 school MOUs	Phase 2 6–12 mo 10+ schools, 5+ colleges	Phase 3 12–24 mo 30+ schools, 20+ colleges
--	--	--

READ THIS AS A PLAN, NOT A PITCH

Each phase is gated on the one before it — Phase 3's Rs.1 Crore+ target only gets pursued once Phases 1 and 2 are actually delivered.

ONE CONVERSATION · ZERO COMMITMENT
